PORTFOLIO

Aspiring web developer with a B.Sc. in Computer Science and Engineering, skilled in HTML, CSS, JavaScript and currently learning the MERN stack. Driven by a passion for building responsive web applications and exploring innovative solutions. Completed a thesis on time series forecasting using population data, and eager to expand expertise in web development, AI, and machine learning. Looking forward to applying these skills to impactful projects and creating new, dynamic applications.

Skills

Programming Languages :	HTML , CSS, Javascript, Typescript, SQL
Frameworks :	ReactJS , NodeJs, ExpressJS, NextJs Tailwind CSS
Documentation Tools :	Postman
Build Tools :	Vite
Development Tools :	VS Code
Authentication :	JWT, OAuth, Passport JS
Database :	MongoDB, Postgres, Firebase Firestore
ORM :	Mongoose, Prisma
Deployment :	Vercel, Render
Version Control :	Git, Github

Projects

Jul 2025 Sep 2025	Inventory Management System, Internship Project, ➤ Built comprehensive full-stack application with React, TypeScript, Express, and PostgreSQL using Prisma ORM ➤ Implemented OAuth authentication (Google, GitHub), JWT sessions, and role-based access control with admin privileges ➤ Developed configurable inventory ID system with multiple formats (FIXED, RANDOM, GUID, DATE, SEQUENCE) ➤ Integrated full-text search, optimistic locking ➤ Created responsive UI with Tailwind CSS supporting custom fields (6 types), markdown descriptions, and tag system ReactTypeScriptExpressPostgreSQLPrismaSocket.IOCloudinaryTailwind CSS
March 2025 May 2025	Sales Analytics Dashboard, Personal Project, ➤ Developed business intelligence platform with Next.js and Firebase Firestore for shop and product management ➤ Built admin panel with real-time analytics and interactive data visualizations using Recharts ➤ Implemented Firebase Authentication with Google Sign-In and protected routes for secure access ➤ Designed responsive UI with Tailwind CSS and DaisyUI for seamless user experience across devices Next.jsFirebaseFirestoreShadCnTailwind CSSDaisyUI
Dec 2024 May 2025	Real-Time Chat Application, Personal Project, ➤ Created messaging platform with MERN stack featuring real-time communication using Socket.IO ➤ Implemented JWT-based authentication, end-to-end encryption, and typing indicators for secure messaging ➤ Built friend management system with user profiles and privacy settings ➤ Developed light/dark theme support with responsive design optimized for mobile and desktop ReactNode.jsExpressMongoDBSocket.IOTailwind CSSDaisyUIVite

May 2025	ContentGuardian, Personal Project,
June 2025	› Developed full-stack content management system with role-based access control (RBAC) for managing blog posts and comments › Implemented secure authentication using JWT and bcrypt with protected routes across both frontend and backend › Designed and enforced three-tier RBAC system — Admin, Author, and Reader — with fine-grained permissions › Built CRUD functionality for posts and comments with Axios API integration and Express RESTful endpoints › Created responsive dark/light theme UI using Tailwind CSS and React Router for seamless navigation ReactViteNode.jsExpressMongoDBMongooseJWTbcryptjsTailwind CSS
Dec 2024	Task Manager Application, Personal Project,
June 2025	› Built full-stack productivity tool with React frontend and Express backend using MongoDB with Mongoose ORM › Implemented secure user authentication with JWT tokens and bcrypt password hashing › Developed task filtering and sorting by status, priority with comprehensive CRUD operations › Designed responsive interface with light/dark mode using Tailwind CSS and DaisyUI components ReactNode.jsExpressMongoDBMongooseJWTTailwind CSSDaisyUI
Jan 2024	Population Forecasting Analysis, Bachelor Thesis,
May 2024	› Developed time series forecasting models to predict Bangladesh population trends using historical demographic data › Compared multiple statistical algorithms including ARIMA and Prophet for accuracy optimization › Analyzed demographic patterns and presented comprehensive findings in academic thesis format PythonARIMAProphetTime Series AnalysisStatistical Modeling

Education

2024	BSc Engg in Computer Science and Engineering, Metropolitan University, Sylhet	CGPA : 3.49
2014	HSC, Notre Dame College, Dhaka	GPA : 5.0
2011	SSC, Doyamoy Singha High School, Tilokpur	GPA : 5.0

Certificates

2025	Commercial Software Development — JavaScript (Participation), Itransition Training Bootcamp, Online › Participated in a JavaScript training bootcamp focusing on commercial software development practices. › Gained practical experience writing clean, maintainable code and understanding real-world workflows.
------	--

Strengths

- › Self-Motivated
- › Fast Grasper
- › Deterministic
- › Strong Analytical Skills
- › Problem-Solving Abilities

Extracurricular Activities

Hult Prize Competition : Participated in the Hult Prize competition at Metropolitan University, Sylhet, and secured 2nd prize.
